

Dr. Gary C. Jones Awarded Top Performer for 2017

GREENVILLE, NC – August 7, 2018 – Gary C. Jones, MD has received the 2017 Top Performer Award by MedStatix. As an industry leader in patient experience surveys, the MedStatix organization annually recognizes top providers using their Patient Experience Platform. The company surveyed over 1.8 Million patients in 2017, and awarded the Top Performer certificate only to those providers who score above 97% in Overall Patient Satisfaction.

“Instead of merely treating the symptoms of an existing condition, we are dedicated to helping our patients sustain the best health possible, while developing a practical strategy for improvement.” says Dr. Jones. “Unlike so many other medical practices in our area, we have a complete organization of providers to effectively treat a diverse range of patients -- and an active community to provide realistic goals and support. This award is a testament to our patients, who are receiving outstanding care and support at our practice.”

Dr. Jones, a founding partner of President of Carolina Clinic for Health & Wellness, leads the clinic’s Advanced Primary Care Team, specializing in general health and offering same-day appointments. Located in a state-of-the-art facility at 2459 Emerald Place off of Arlington Boulevard in Greenville’s Medical District, the Advanced Primary Care Team is comprised of highly talented, experienced and compassionate providers.

Providing the highest quality health care for the individuals, families, and communities, the philosophy of Carolina Clinic for Health & Wellness is grounded in the beliefs of its physicians and associates established over three-quarters of a century of trusted service to individuals and families in the Greenville, NC area.

The Carolina Clinic for Health & Wellness now offers extended hours and same-day appointments for its Primary Care practice. For more information, or to request an appointment, visit www.carolina-clinic.com or call (252) 757-3939.
